INSTALLATION INSTRUCTIONS

1. Place the vehicle in park.
2. Raise the hood and remove the 12 plastic clips from cover and remove. Retain hardware for re-use. **See Photo 1 & 2.**

3. Remove the four bolts on top of grill. Then pull on the bottom of grill to get clips to release. Remove grill. **See Photo 3 & 4.**

4. In the middle of bumper locate and unplug fog light connector. **See Photo 5.** Remove clip holding wiring harness to bumper.

5. Using a 15mm socket remove the bolts that attach the side of bumper to support bar. **See Photo 6.**

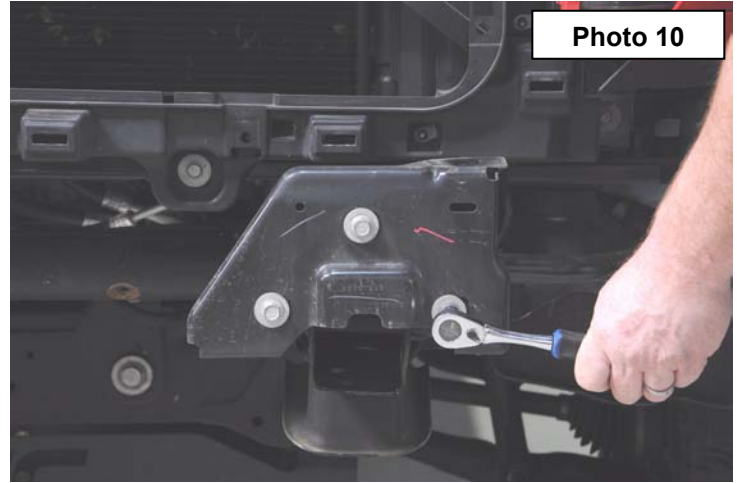

6. Use a torx 15 and remove the inner fender well bolt from bumper on both sides. **See Photo 7.**

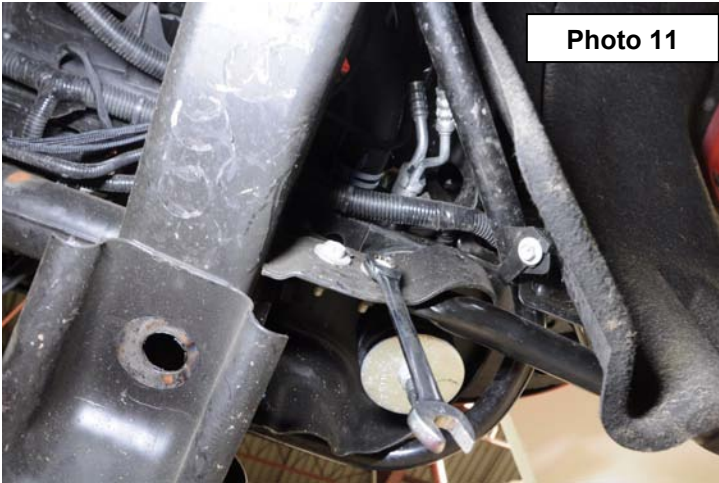

7. Using a 18mm socket remove the four bumper mounting bolts. **See Photo 8.**

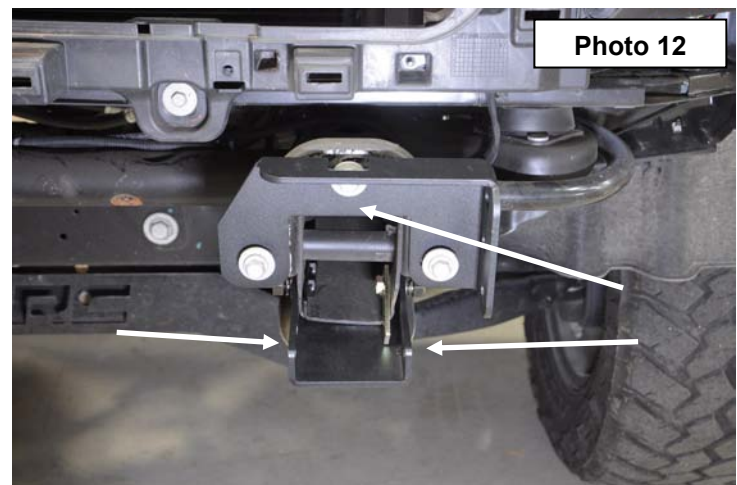

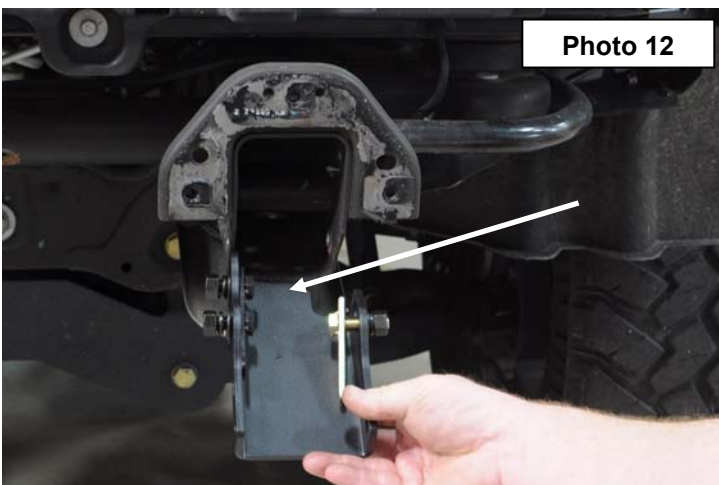

8. Remove bumper. **See Photo 9.**
9. Using a 15mm socket remove the 6 bolts (3 each side) from stock mounting plates. Retain the stock hardware for reuse. **See Photo 10.**

10. Using a 15mm remove the 4 bolts (2 each side) from the support bar that is mounted to body mount. **See Photo 11.**
11. Using a 15mm and 18mm wrenches remove the tow hooks.
12. Locate the supplied lower bracket and install using the supplied 12mm nuts on the flag bolt brackets. **See Photo 12.**

13. Install the supplied upper bracket on the frame using the factory hardware and tighten using a 15mm wrench. Driver side shown. **See Photo 13.**
14. Re-install the factory tow hook using the stock bolts and supplied shim plates. Use a 18mm and 19mm wrenches to tighten bolts.

15. If not factory equipped with proximity sensors, the new bumper kit includes caps for the locations in the bumper. Install proximity sensors into bumper using rubber o-rings and screws or install the plastic and rubber plugs as shown in **Photo 13 & 14**.
16. If equipped with factory proximity sensors, install at this time with supplied rubber O-rings and supplied 4mm Allen head bolts to secure them to the bumper.

17. Raise the bumper up into place. Install the bumper on the mounting brackets with the supplied 10mm x 35mm bolts, nuts and washers. Adjust bumper and tighten hardware using a 16mm socket. **See Photo 15.**
18. Reinstall the plastic grill using the stock hardware.
19. Reinstall the plastic radiator cover with the factory clips.
20. Reinstall the inner fender covers with factory hardware,
21. Install the lights in the bumper and wire them as needed. The kit includes a 2 into 1 wiring adaptor to wire the 2" pods into one wiring harness.
