

Jimny Fuel Module Skid Plate Installation Instructions

	NOTICE Read instructions completely before installing this product. Refer back to the instructions frequently during installation.		CAUTION Flying Object Hazard. Fluid Splash Hazard. Wear safety glasses at all times when working on vehicle.
 WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov			

Step 1

Hold up the skidplate underneath the fuel module, the side with two mounts will go to the front of the vehicle.

LROR-308027-INS

Step 2

Factory mounting locations will be used to remove bolts from factory locations using the fuel module skid as a guide to show which screws to remove.

Step 3

Once these bolts are removed the skid plate can be installed. We have supplied longer bolts if you find them necessary to secure the skidplate in your application. The brake line hold down tab should be installed on the top of the fuel module skid.
