	<b>NOTICE</b> Read instructions completely before installing this product. Refer back to the instructions frequently during installation.		<b>CAUTION</b> Flying Object Hazard. Fluid Splash Hazard. Wear safety glasses at all times when working on vehicle.
 <b>WARNING:</b> Cancer and Reproductive Harm - <a href="http://www.P65Warnings.ca.gov">www.P65Warnings.ca.gov</a>			

### Step 1

1. Using a phillips screw driver remove the two screws connecting the window latch to the inside of the cab and the screw connecting the window latch to the window.

### Step 2

2. Use a 3/16" drift punch to remove the two roll pins connecting the hinge pivot to the window latch and the hinge pivot to the cab latch mount.

TAC-IB-WLP

### Step 3

Install the new hinge pivot and roll pin into the window latch as shown.  
Retain the original pivot spring.

### Step 4

4. Install the new hinge pivot and roll pin into the cab latch mount as shown.

### Step 5

Reinstall the two screws connecting the window latch to the inside of the cab and the screw connecting the window latch to the window.

### Step 6

Test the latch to make sure it opens and closes well. If the close position seems too tight, drill out the holes in the new hinge pivot to 5/32" or 3/16" depending on the fit.
